

Putting Your Principles INTO PRACTICE

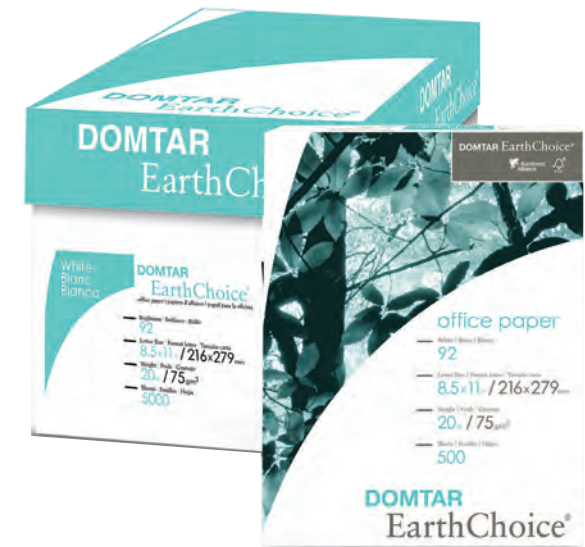

Using FSC-certified EarthChoice® Office Paper for everyday applications such as copying, printing or faxing is an easy change that many organizations are making every day to demonstrate their commitment to the environment.

The Forest Stewardship Council (FSC) encourages

- The improvement of forest management
- The promotion of the highest and best use of forest resources
- The reduction of damage and waste
- The avoidance of over-consumption and over-harvesting

FSC-certification is supported by leading environmental groups, such as The Rainforest Alliance and WWF.

Thanks for making a difference!
