

Issue Number 22 | November-December 2017

Wild Turkey Renewal

Turkey is at the top of many menus this time of year. But when the National Wild Turkey Federation was founded in 1973, only 1.5 million wild turkeys were living in North America. Today, that number is nearly 7 million. Watch Tom Kain, procurement forester at Domtar's Kingsport, Tennessee mill explain how responsible forest management protects the habitat of this unique species.

Turning Around the Thompson River

Running along Domtar's Kamloops, British Columbia mill, the Thompson River used to have a brown hue and rocks covered in thick slime. As part of a multi-stakeholder group, Domtar's focus on the efficient, responsible use of water helped improve the health of the river and fish throughout the region.

Tech and Forestry

This year, millions of Canadians celebrated the country's 150th anniversary. But a paper mill has been operating in Windsor, Quebec even longer. Far from an outdated relic, today's modern facility is anything but antiquated. Learn more about the role of technology the mill uses in its modern forestry operations.

DID YOU KNOW?

The first paper merchant in America was Benjamin Franklin, who helped start 18 paper mills.

EVERYDAY SUSTAINABILITY

The average home emits twice as much CO₂ as cars. This winter, get your air ducts resealed. This can reduce air leaks by 30%, lowering both your energy bill and carbon footprint.
