

Membership in Associations and Advocacy Organizations

Our association and advocacy partners provide Domtar critical information and support to conduct business more efficiently and effectively, while also providing the critical mass to advocate for public policies that allow our business to be more sustainable.

Our partners primarily focus on issues such as: public policy, responsible forestry, fair trade, transport and logistics, environmental improvements, health care, fiber technology research and maintaining access to paper options.

Primary Domtar Association Memberships

- Absorbent Hygiene Product Manufacturers Association (<http://www.ahpma.co.uk/index.html>)
