product features

- 96 brightness with a pleasing blue-white shade
- Excellent opacity for minimal show-through
- Special surface treatment enhances print quality and improves optical density for pigment inks
- Unique stiffness characteristics to support post converting process
- Enhanced waterfast element ensures fast drying of all images

common uses

- Direct Mail
- Statements
- Transpromotional documents
- Transpromotional postcards
- Transactional business return cards

usps postal regulations

- VividJET® Premium Card 7 pt. and 9 pt. are made to caliper and comply with U.S. Postal Service regulations

Domtar performance commitment

Domtar's digital and inkjet products are designed and recommended for digital and inkjet production presses, desktop printers (laser and inkjet) and copiers within the limitations specified by the original equipment manufacturer.

We partner with leading OEM's to print test and certify our inkjet products as fit for use on a wide variety of equipment. Domtar's products are optimized for runnability on press and through post-processing. Our surface treatment will enhance print quality compared to untreated stocks when using pigment inks. And our products are suitable for offset pre-print. As always, Domtar stands behind our commitment and our products.

pack

VividJET®

- Rolls—processed and unprocessed
 - Run to length (linear feet) vs. diameter
- Sheets—popular sizes stocked at Domtar's Regional Replenishment Centers

VividJET® Premium Card

- Rolls—processed and unprocessed
- Sheets—popular sizes stocked at Domtar's Regional Replenishment Centers
