product features

- Designed for today's most advanced dye high speed ink jet systems
- Surface treatment specifically engineered for improved print quality when used on dye based systems
 - Greater lifts in density and depth of color
- High brightness and pleasing blue-white shade for enhanced graphics & sharp contrast
- High opacity for minimal side to side show-through
- Consistent runnability on press and in post-processing equipment for inserting, punching and folding
- Product run to linear footage for roll length consistency

common uses

- Ideal for all types of statements including billing and other corporate correspondence
- Variable data full color Direct Mail documents
- Transpromotional documents using color variable data.

pack

- Rolls - processed and unprocessed
- Run to length (linear feet) vs. diameter

environmental characteristics

- Forest Stewardship Council® (FSC®) Certified
- (SFI®) Certified Sourcing
- Made with Elemental Chlorine Free (ECF) virgin fiber content
- Manufactured under alkaline (acid-free) conditions for increased longevity and performance

Domtar performance commitment

Domtar's digital and inkjet products are designed and recommended for digital and inkjet production presses, desktop printers (laser and inkjet) and copiers within the limitations specified by the original equipment manufacturer.

We partner with leading OEM's to print test and certify our inkjet products as fit for use on a wide variety of equipment. Domtar's products are optimized for runnability on press and through post-processing. Our surface treatment will enhance print quality compared to untreated stocks when using dye inks. As always, Domtar stands behind our commitment and our products.
