

ENGINEERED ABSORBENT MATERIALS (EAM)

2075 Sunset Boulevard, Jesup, GA 31545

2023

AT A GLANCE

Located in Jesup, Georgia, and opened in 1998. Domtar's EAM facility produces airlaid nonwoven products used in a wide variety of consumer products, including feminine hygiene, adult incontinence, baby diapers, pet care products, specialty medical and food packaging applications. Some of the world's largest branded and private label manufacturers incorporate EAM's NovaThin® and NovaZorb® brand cores into a wide range of products that consumers and businesses rely on every day. In 2021, EAM began an expansion project to increase its production capacity. Now, EAM is the 2nd largest airlaid producer in the United States, and the 3rd largest in the world.
