94

PRODUCTS

- Lumber and decking

MILL OVERVIEW

Glenwood Sawmill produces southern yellow pine dimensional lumber as well as radius edge decking used by the construction industry in the Southcentral United States. The mill is well positioned for growth, in proximity to some of the markets with the highest population growth in the country.

ENVIRONMENTAL CONTRIBUTIONS

- Since March 2022, Domtar's Arkansas operations have sourced wood fiber and maintained chain-of-custody and fiber sourcing certificates under the standards of the Sustainable Forestry Initiative® (SFI®), the Programme for the Endorsement of Forest Certification (PEFC) and the Forest Stewardship Council® (FSC®). Third-party certification provides the assurance that fiber-tracking systems are in place to identify the source of fiber or wood.

COMMUNITY INVESTMENT

- For every 250,000 injury-free hours worked, Domtar awards employees \$5,000 or more to donate to local organizations. At Glenwood, employees have consistently chosen to donate these funds to local organizations in their community.

AWARDS AND CERTIFICATIONS

- PEFC Certificate
- SFI® Certificate
- SFI Fiber Sourcing Certificate
- SFI Certified Sourcing Certificate
