MILL OVERVIEW

Located in West Carrollton, Ohio, and opened in 1947, Domtar's West Carrollton Facility produces thermal paper products that reach many consumers every day in the form of gas pump, retail, food service, and ATM receipts. The facility also coats thermal label product used in package delivery and grocer delis for a leading label supplier. The facility is the largest supplier of thermal point-of-sale (POS) products in the United States.
